## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 33-82 are allowed.
2. The following is an examiner's statement of reasons for allowance: no prior art references have been found to teach or suggest a capacitive isolation barrier over having a pair of capacitors over power and clock signal is received from the powered system to the isolated system as well as differential data signals are transmitted bi-directionally.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

US patents nos. 4,835,486, 5,396,555, 6,926,358 each teach a capacitive isolation barrier.
